

SEATTLE WINE & DINE SPONSORSHIP OPPORTUNITIES

PURPOSE OF THE EVENT:

In order to fulfill our vision and values, we need to be engaged in our community. Building relationships through this event will benefit the entire business school, especially our students. The Wine and Dine is a fundraising event with a focus on excellence through networking and engagement. All net proceeds will benefit the School of Business Administration Excellence fund in support of the annual initiatives to fulfill the SBA's vision and values.

The business school's success in being able to pursue our values relies on the myriad of relationships we enjoy with so many people and business community partners who are engaged with us over time and who support this event each year. From single ticket purchasers to underwriters of wine costs to premier corporate sponsorships—every single relationship we build with this event enhances the delivery of Jesuit business school education.

OUR VALUES ARE CLEAR

*We are committed to academic excellence.
We actively engage in our university & our community.
We embrace the Jesuit legacy of inspired, confident & innovative action.*

OUR VISION IS SIMPLE

We will be a global leader in Jesuit business education.
