

31ST ANNUAL JUSTEC CONFERENCE

The Japan-US Teacher Education Consortium (JUSTEC) was established under the aegis of AACTE in the late 1980's by several deans of education at universities in the United States and in Japan in the interest of fostering joint research efforts into teacher education issues of mutual interest in both countries.

JUSTEC is a unique educational organization that supports its participants in pursuing not only academic endeavors but also professional networks, for growth in both research and teaching practices for teacher education.

In addition to the continuous support from the AACTE, the JUSTEC conferences have gained the official support of the US Embassy, Tokyo and the Ministry of Education, Culture, Sports, Science, and Technology (MEXT), Japan, thereby providing particular educational benefits for Japan-US educations and teacher education.
