

High Bay Lab Showcase

The Structural High Bay Lab at Gonzaga's School of Engineering and Applied Science is poised to be a hub for collaboration and innovation. Be among the first to experience the potential of this transformative space and learn how your company can benefit.

Thursday, May 8

5:00 – 6:30 p.m.

John & Joan Bollier Center,
Room 204
Gonzaga University

Refreshments provided.

RSVP to Jaunessa Walsh
walshj@gonzaga.edu or 509.313.6510

You're Invited

Help shape the future of engineering and applied science at Gonzaga University.

Enjoy complimentary food and refreshments while networking with fellow industry leaders and Gonzaga faculty. The evening will include a brief presentation on the lab's capabilities, the exciting research opportunities available and the funding needed to fully equip this state-of-the-art space.

Why Attend?

- Discover how the High Bay Lab can support your company's research and development efforts.
- Learn about the innovative projects already underway, from advanced material testing to alternative foundation systems.
- Tour the lab and envision the possibilities for collaboration and innovation.
- Find out how your support can bring this visionary space to completion and drive engineering advancements in the region.

Your partnership can help raise the \$500,000 needed to outfit the High Bay Lab with essential equipment, ensuring students and industry professionals alike have access to a world-class research facility.

Looking forward to seeing you!

Jennifer Niven Shepherd, Ph.D.
Interim Dean, School of Engineering and Applied Science
Gonzaga University
