Percentage of Your Graduates Passing the NCLEX-RN® Examination

The bar graphs below show how the passing percentage of your graduates testing for the first time (reported in the previous table) compares to that of other groups.

When historical data are available, a comparison of the current and previous groups will be shown in both the table (found on page 3.3) and the corresponding bar graph chart titled *Percentage of Your Graduates Passing Compared to Previous Periods*.

The bar graph on the right, *Percentage of Your Graduates Passing Compared to Other Groups*, shows how your current group compares to (1) all graduates from your state or territory, (2) all graduates from programs of the same type as your program (BSN, Associate Degree, or Diploma), and (3) all graduates in the national population. The height of the bars reflects the percentage of first-time test-takers in that group who passed the NCLEX-RN examination.
