

# 2026-2027 DIRECT COST BY PROGRAM

This page provides estimated annual direct costs for Gonzaga University graduate programs. Direct costs include average tuition, mandatory university fees, and required program-specific fees charged by the University for the academic year.

Cost estimates are calculated using a typical full-time enrollment pattern for each program and reflect program-level averages. Actual charges may vary based on course load, enrollment pacing, modality, or individual program requirements.

These estimates are intended to be used as a companion to Gonzaga's published Cost of Attendance (COA). They do not represent the full cost of attendance and exclude indirect expenses such as housing, food, transportation, personal expenses, and books or supplies unless otherwise noted.

Additional details about tuition rates and course-specific fees are available on the [Student Accounts website](#). Information about estimated living expenses and indirect costs can be found on Gonzaga's [Cost of Attendance website](#).
