About Loan Cost Examples Above

The amounts shown above are for illustrative purposes only. The examples assume that repayment begins six months after ceasing enrollment at Gonzaga University.

The monthly payment amount will vary depending upon the total principal amount that is due when the loan enters repayment (the total of all advances given under one Master Promissory Note).

The minimum monthly payment will be at least \$25.00 per month. The repayment period and total interest paid over the life of the loan may vary from the above illustration if more than the minimum monthly payment is made during repayment or if you make any payments while in school or during your grace period.

Interest on this loan is deferred until the loan enters repayment and during subsequent periods of deferment. Repayment begins after the six-month grace period. The grace period begins once you cease to be enrolled at least ½ time at Gonzaga University as determined by the Registrar's Office.

The loan must be repaid in 10 years (does not include grace period or qualifying period of deferment). There is no prepayment penalty.

You may qualify for Federal education loans.
