

NEXT GENERATION MEDICINE Presents: Kids and Concussions + Fall Prevention and Traumatic Brain Injury Among Older Adults

Featuring experts from the UW's Harborview Injury Prevention & Research Center

The Harborview Injury Prevention & Research Center (HIPRC) is a worldwide leader in injury cause and prevention research. Founded in 1985, HIPRC is affiliated with the University of Washington and Harborview Medical Center, the state's only Level 1 trauma center, located in Seattle.

Presenting at this webinar will be Monica Vavilala, MD, HIPRC director and professor of Anesthesiology and Pediatrics, and Kushang Patel, PhD, MPH, HIPRC research core director, research associate professor in the Department of Anesthesiology and Pain Medicine, and adjunct professor in Gerontology and Geriatric Medicine. During the Q&A portion, the presenters will be joined by Frank Jackson, DO, medical director for Brain Injury at Providence St. Luke's Rehabilitation Medical Center in Spokane.

Wednesday, April 13, 2022, 6-8 p.m. (Pacific time). This webinar is open to everyone and admission is free. Register at bit.ly/nextgenmedhiprc.
