**When Isolation is Required**
(you have tested positive)

<table>
<thead>
<tr>
<th>Symptomatic</th>
<th>Asymptomatic</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Stay home for 5 days following the onset of symptoms</td>
<td></td>
</tr>
<tr>
<td>o The first date of symptoms is not included in this five-day period, and counts as day “0”</td>
<td></td>
</tr>
<tr>
<td>• If you no longer have symptoms or your symptoms are resolving after 5 days*, you can end isolation</td>
<td></td>
</tr>
<tr>
<td>• You must continue to wear a mask around others for 5 additional days. *See sample timeline/day counts below.</td>
<td></td>
</tr>
<tr>
<td>• Stay home for 5 days following the date of the positive test</td>
<td></td>
</tr>
<tr>
<td>o The test date is not included in this five-day period, and counts as day “0”</td>
<td></td>
</tr>
<tr>
<td>• If you are still not experiencing symptoms after 5 days, you can end isolation</td>
<td></td>
</tr>
<tr>
<td>o If you begin to experience symptoms, please follow the guidance above</td>
<td></td>
</tr>
<tr>
<td>• You must continue to wear a mask around others for 5 additional days</td>
<td></td>
</tr>
</tbody>
</table>

**Additional notes:**
- Guidelines for isolation remain the same regardless of vaccination status
- If symptoms are consistent or worsening after day five, the individual must remain in isolation until free of fever for 24 hours and symptoms are resolving

**Example timeline for symptomatic:**
- January 1: Symptoms start (day 0)
- January 2: First day of isolation (day 1)
- January 6: Last day of isolation (day 5)
- January 7: End of isolation, if fever-free and symptoms are resolving

**Example timeline for asymptomatic:**
- January 1: Positive test with no symptoms (day 0)
- January 2: First day of isolation (day 1)
- January 6: Last day of isolation (day 5)
- January 7: End of isolation, if still asymptomatic
### When you are **Exposed** to COVID-19*  
(Students living in campus housing)

| **Fully Vaccinated AND Boosted** | **No quarantine needed:**  
|----------------------------------|-----------------------------  
| **OR**                           | • Wear a mask around others for **10 days** following the exposure  
| **Fully Vaccinated and Ineligible to Receive a Booster*** | • Monitor for symptoms and test if you become symptomatic  
| **OR**                           | • Test **five days** following the exposure, even if asymptomatic  
| **Recovered from COVID-19 in the last 90 days** |  

| **Eligible to Receive a Booster*** but NOT YET Boosted | **Modified quarantine:**  
|--------------------------------------------------------|--------------------------------------------------------------------------  
|                                                       | • Quarantine in place for **five days** following the exposure  
|                                                       |   - Do not attend classes  
|                                                       |   - Do not attend in-person meetings, events, work shifts, gatherings  
|                                                       |   - Utilize take-out options on campus, do not eat in the COG  
|                                                       |   - Stay home except to test or utilize campus takeout options  
|                                                       | • Wear a mask around others for **10 days** following the exposure  
|                                                       | • Monitor for symptoms and test if you become symptomatic  
|                                                       | • Test **five days** following the exposure, even if asymptomatic  

| **Unvaccinated** | **Full quarantine:**  
|------------------|--------------------------------------------------------------------------  
|                  | • Quarantine for **five days** following the exposure  
|                  |   - Students will be moved to a designated quarantine space on campus  
|                  | • Wear a mask around others for **10 days** following the exposure  
|                  | • Monitor for symptoms and test if you become symptomatic  
|                  | • Test **five days** following the exposure, even if asymptomatic  

*Additional notes:*  
- An exposure is defined as **being less than 6 feet away from infected person for a cumulative total of 15 minutes or more over a 24-hour period.** Wearing a mask does not factor into this definition.  
- An individual is eligible to receive a booster if:  
  - It has been 6 months following their second dose of Moderna
It has been 5 months following their second dose of Pfizer
It has been 2 months following their Johnson & Johnson dose

- An individual is ineligible to receive a booster if they have completed their vaccination series but are still within the window outlined above.

Example timeline for quarantine:
- January 1: Date of exposure (day 0)
- January 2: First day of quarantine (day 1)
- January 6: Last day of quarantine, test for COVID-19 (day 5)
- January 7: End of quarantine, if test results are negative
